

Lake County Free Clinic...*Believes Everyone Deserves to Live a Healthier Life*

For 45 years, Lake County Free Clinic has ensured individuals in our community have access to quality medical and dental care, regardless of what life brings. Patients are the uninsured and under-insured residents from across Northeast Ohio. There is no charge; donations are requested. LCFC is not government-supported; patients are seen regardless of income or insurance status. 90% of the staff are volunteer providers who are leaders in their field.

Increased Services, Growing Needs

An increasing number of patients are those who are insured but cannot afford to use their coverage. Since 2012, LCFC has grown: the budget has doubled and they have twice the capacity. Beyond primary care, wellness & chronic care education is provided and many diabetic patients have eliminated symptoms and medication need. In addition, they offer Prevent Blindness Ohio vision screenings.

Despite its growth, they have to turn away five people for every one appointment they provide. Additional volunteer medical providers and nursing staff are needed, especially family, primary care and dental providers.
