Feel like yourself again!

Following breast surgery, it's important to get back to the things you love doing. Radiant Impressions, Trulife's custom breast prosthesis, is a non-surgical breast reconstruction option for women who have had a mastectomy, lumpectomy, or reconstruction surgery.

3D Scanning: Custom Breast Form

With the use of an Apple iPad and Structure Sensor 3D scanning technology, a precise and detailed image of your surgery site is quickly created. Your custom prosthesis is then carefully hand-crafted by experienced artisans to match your contour, shape and profile. One of 36 skin tones and an impression of your nipple are added to make your prosthesis unique to you.

YOUR CERTIFIED SPECIALISTS FOR BRA & BREAST FITTINGS

SERVING YOUR SPECIAL NEEDS FOR: *Mastectomy, Lumpectomy, Reconstruction, Asymmetry*
