

A “Miracle Drug” or the “Fountain of Youth”

In your youth, cell division is necessary for development and growth. However, as you age, cell division slows down until they no longer divide.

Human Growth Hormone (HGH), the master hormone that helps you grow, peaks around age 20, then plummets around the age of 25, and slowly declines the rest of your life—hence the dreadful process linked to aging, cancer, and a higher risk of premature death.

WHAT CAN LOW GROWTH HORMONE LEVELS LEAD TO?

- Decreased strength and stamina
- Low energy
- Decreased muscle mass
- Weight gain, especially around the midsection
- Feeling of depression, anxiety and sadness
- Thin and dry skin
- Decrease in sexual function and interest
- Reduction in bone density
- Fatigue
- Greater sensitivity to cold and heat

Experts say elevating the growth hormone (HGH), as you age, back to the levels they were in your 20s can reap dramatic benefits.

For example, everyone is different and has a variety of results, but you may experience *significant* fat loss (especially around the mid-section), *enhanced* muscle mass, tone, strength and libido, *improved* sleep, mood, energy, memory, healing, recovery & flexibility, *reduced* joint pain, *increased* joint mobility, hair growth, & bone density, *healthier* hair, skin, & nails, *faster* recovery time and the list goes on.

SOMADERM™ Gel is the ONLY transdermal (applied topically), FDA registered human growth hormone (HGH) product available without a prescription.

SOMADERM™ Gel is a homeopathic form of growth hormone and is 100% safe and effective for men and women over the age of 18.

T E S T I M O N I A L S

Here are testimonials from people using New U Life's Somaderm™ Gel:

Diane

I am 70 and have 55 days on the gel. My sleep has improved. I feel rested when I wake up. My joint discomfort is almost gone. My skin is softer, and smoother. I had a large brown pigmented spot on my left facial cheek, which has almost gone away. My hair is fuller. My mood has improved. I have an overall feeling of well being. My energy level has increased. Constipation has gone away. Finally, my sexual libido has returned. I love this gel, and I will use it the rest of my life.

Michelle

My Dream Product come true!!! I am 47and have been using the gel for two months. My hairdresser noticed my hair growth and its natural color returning. I have more energy, softer skin and hair, and reduced joint pain. I don't have night sweats. I'm happier, and not as irritable. I feel "balanced." My husband is on it too. He has lost in his waist, has softer skin, more energy and the big one for him is his crushed toenail is growing in normal!!!

Dava

This Gel is amazing!!! I have used it for 6 months, and I want to scream it from the rooftops. My mood is better, and I'm happier. My skin is softer and smoother, and my complexion is clear. Hair and nails are healthier and stronger, eyelashes longer, eyebrows thicker, crow's feet disappeared, crease above my nose is gone, lines on my neck are decreasing, and forehead wrinkles are softening. When I work out I experience improved joint mobility. I'm down 9 lbs., a Jean size and a dress size. I lost belly fat and extra chub around my arms and legs that hormonal imbalance made me gain. My muscles more toned, defined and stronger. Hot flashes are gone. I sleep soundly and wake alert and refreshed. And, thankfully my libido has increased. I'm 52 years old and feeling 32.

...what do you have to lose?
