Michelle Price,
Energy Healing/Reiki Master

Michelle has been practicing in the healing energy field for 15 years. She has provided care in the hospital, hospice and the home environment as well as distance healing for people in search of a change in themselves. She has also worked with many animals suffering from physical issues and/or stress and anxiety. She is a certified Reiki master and has certification from the Warren Grossman School of

Healing. Michelle became aware of her energy healing gift as a child. She grew up on a farm spending most of her time with her animals and nature. Her office in Burton Ohio gives her and her visitors the feeling of connecting with nature.

By Michelle Price, House of Energy

Are you living the life you want? Does your life feel incomplete? Do you feel stifled or wish there was more?

The fact is, we all experience these feelings at different times in our life—feeling held back, trapped or having a sense of longing for something we can't quite put our finger on. We want change but may feel blocked emotionally, physically and/or spiritually.

Whatever it is at the moment in your life that is holding you back, whether it be a relationship, money, family responsibilities, health, fear of failure, etc., you can move forward and make your life richer and more fulfilling. You can do this through a healing journey that allows you to reconnect with your true self—believe in, trust in and love.

Through healing energy work, blockages can be cleared and your body can shed layers of negative energy that may be holding you back. You will learn how to connect with your heart and release daily toxins. As the blockages are released, the mind, body and spirit move into harmony and balance.

I have been blessed. When I look into the eyes of people I see their beautiful soul. However, I also look into their hearts and feel their emotional, physical, and spiritual pain. I am here to tell you my friend, these blockages can be gently released and replaced with a healing and rejuvenating energy.

As we walk through this energy healing together you will see that anything is possible.

Call me and let's talk about releasing the things that are holding you back and the new challenges you wish to pursue and embrace.

A special note if you live outside the area: If you are concerned that you live too far away to make a trip to see me, I want you to know that many of my clients live around the country and receive the energy work. Contact me and I'll explain how it works.

To have been treated by Michelle was ... an amazing experience of grounding, peace, and love. ... each treatment has been more intense and more soul touching than before. A session with Michelle is more than I can express in words, but a journey to healing ... U must experience to truly appreciate. Namaste friend.

I have been blessed to have Michelle in my life. For ... years ... a sorrowful experience was affecting me emotionally and physically. I had tried reasoning, praying, meditating and forgiveness but something was just stuck. .. she was able to see and release the negative energy that had been pulling me down. ... and left me with a wonderful blend of calm and a spirit of growth. Thank you Michelle for sharing your gift—you really are a blessing.
